TWENTY PAGES—FIVE CENTS

## Commie Jury Sent To Bed

### Reach No Decision After 5 Hours

New York, Oct. 13—(AP)—A federal jury was sent to bed at 9:21 p.m. (CST) tonight, unable after more than five hours' debate to fix the fate of America's 11 top Communist leaders.

They are due to resume deliberations at 8:30 a.m. (CST) tomorrow.

The historic case went to the jury at 2:53 p.m. (CST) today after 39 weeks of bitter trial.

The 11 defendants are accused of conspiring to advocate the violent overthrow of the U. S. government. If convicted, they face possible fines of \$10,000 each and 10 years imprisonment.

**100 Reds Await Outcome**

While the jury deliberated, about 100 pro-Communists kept vigil outside the Foley Square court house for some news of a verdict.

When the defendants left after the jury went to bed, these bystanders raised a cheer that echoed across the tiny square in lower Manhattan. "Long live the C.P.U.S.A.," shouted some, abbreviating the title Communist party, U.S.A.

"Don't let them get away with anything," roared others.

The crowd also cheered the defendants by name.

The Communist leaders shook hands with members of the crowd. Three police officers were on hand but did not try to disperse the demonstrators. The crowd eyed the police and sang:

"Like a tree standing by the water, we shall not be moved."

**Waves Crowd Home**

An unidentified young man waved the crowd home eventually, telling them to return in the morning. He would not give his name but said the demonstrators were "friends and relatives" of the defendants.

The jury argued the case from 2:53 p.m. (CST) until it went to dinner at 4:40 p.m. (CST). Then it resumed deliberations at 6 p.m. (CST) and continued to the overnight adjournment.

In all, they were closeted for five hours and 8 minutes without reaching a decision.

As the hours rolled by, eight of the 11 defendants idled in the first floor courtroom or in the corridor outside. Three still are behind bars during off-court hours for contempt of court.

Before the jury went to the Hotel Knickerbocker at 120 West 43rd street for the night, it had twice sent out for evidence used in the nine-month trial—heavy books on Communist tactics and logic.

Their second request for the book "Problems on Leninism" led to a 56-minute discussion by attorneys in the judge's chambers. However, the judge eventually decided to let the jury have the book.

**Atomic Committee Praises Work Of AEC In Report**

Washington, Oct. 13—(AP)—The Democratic majority of the Senate Atomic committee credited the Atomic Energy commission tonight with taking "a vast enterprise which was falling apart at the seams and reshaping it into a formidable deterrent against aggression."

In a report opposed by six Republican members, 10 Democrats said that a committee quest for proof of "incredible mismanagement" charges leveled at the AEC by Senator Hickenlooper (R-Iowa) has been "fruitless."

And Chairman McMahon (D-Conn.), in talking to reporters, disputed Hickenlooper's assertion that the majority had sought to "whitewash" the commission.

"The senator," McMahon said, "unfortunately is in error, as I believe him to have been in error in his original charges."

Hickenlooper had charged, among other things, that the AEC and Chairman David E. Lilienthal were lax in guarding the secrets of the atomic bomb.

**Gillespie News Put Up For Sale**

Gillespie, Ill., Oct. 13—(AP)—Mr. and Mrs. S. P. Preston, owners and publishers of the Gillespie News, a weekly newspaper, today announced its sale to Mr. and Mrs. Charles Blanchard of Des Moines, Iowa.

The paper was established by the Preston family 44 years ago. The Prestons said the news was being sold because Preston is ill.

Terms of the sale were not announced. The Blanchards will begin operation Nov. 1.

Preston has been active for years in Illinois and Macoupin county Democratic politics.

## Shirley Temple Sues For Divorce From John Agar

Hollywood, Oct. 13—(AP)—Shirley Temple's marriage to handsome John Agar ended on the Hollywood shoals today. The little Miss Marker, of yesteryear, filed suit for divorce.

"For two and a half years we have been trying to make this marriage work," 21-year-old Shirley, cinema child idol of moviegoers, told reporters. "We have both tried hard, we really did. But it just didn't work."

"We reached a decision last night. John is no longer living in our home."

Even blase filmland—inured to split things—was surprised at the split-up. Only a year ago, Shirley had said: "We have never exchanged a single harsh word. Two careers in one family works out wonderfully for us."

The divorce suit followed a familiar Hollywood pattern, charging "extreme cruelty and gross mental suffering." Attorney George Stahlman, who filed it, said there is no community property. Apparently Shirley, who reputedly made a million before she was in her teens, and Agar had kept their finances separate.

**Judge Thinks FBI Put In Politics Through Probes**

El Dorado, Ark., Oct. 13—(AP)—An Arkansas circuit judge thinks J. Edgar Hoover is putting the FBI in politics through investigation of the American Medical Association and affiliated state and county groups.

Justice Gus W. Jones, in a prepared statement issued today, also criticized Attorney General J. Howard McGrath for ordering the investigation.

"Until this time, I believed Mr. Hoover has kept the FBI out of political mire," he said.

"The FBI is not a court but is closely associated with courts. It is very definite and certain that politics have no place in our courts. When politics enter our courts, justice and right will no longer be found there."

Judge Jones said that "Mr. McGrath, as an individual, has the right to think as it pleases him on the issue of socialized medicine, but he does not have the moral right to use the facilities at his disposal to harass any individual or group for having or expressing an opinion different to his own."

"From every point of view, it impresses me that Mr. McGrath has taken a serious step in the wrong direction."

**2 Men Fined For Worrying Ducks**

Midland, Mich., Oct. 13—(AP)—Pursuing and worrying certain waterfowl—namely ducks—brought fines today for two Breckenridge, Mich., men.

Dr. Forest Schneider and Arthur Clemens pleaded guilty to the odd charge after refusing to plead guilty to the original charge of hunting ducks from a flying airplane.

The two said they were only taking aerial pictures of the ducks and had no gun in their plane when they were arrested last Saturday.

Municipal Judge Henry Hart then accepted their pleas to the lesser charge. He fined Schneider \$75 and Clemens \$50 and each of them \$6.85 in costs.

**ELECTED HEAD OF STATE LIQUOR ASSN.**

Peoria, Ill., Oct. 13—(AP)—Ellis Catterall of Peoria today was elected president of the Illinois State Liquor Dealers association.

Other officers elected at the 15th annual meeting were Lee Mohr, Rock Island, secretary; John Rechner, Kankakee, treasurer, and John Merritt, Ottawa, sergeant at arms.

Vice presidents named were Elmer Welch, Decatur; Max Benethien, Rockford; Stanley Wasilewski, LaSalle; William McCormick, Champaign, and Ike Frederick, Peoria.

**TO FILM FIGHT MOVIE**

Chicago, Oct. 12—(AP)—Production of a \$500,000 movie called "The Golden Gloves Story" dramatizing amateur boxing, will start here within two weeks.

The filming will be the first effort of the newly-organized Central Pictures corporation, headed by the Chicago law firm of Libit, Lindauer, and Henry, and financed by Chicago businessmen.

**Nationalist Garrison Flees Canton As Reds Advance**

Canton, China, Oct. 13—(AP)—The Chinese Nationalist garrison fled Canton tonight.

Resistance in the entire region has collapsed. The population is generally expecting Communist troops to enter some time Friday.

The main body of nationalists went west on the highway.

Estimated to total about 80,000 men, they may be slipping at a link-up with the 200-man force of nationalist Gen. Pan Chung-Hsi Pai, who earlier in the week pulled southwest from the front north of Canton, has his headquarters at Kwei-chin, 250 miles northwest of Canton.

The swift Communist advance might prevent such a junction and hem the garrison against the seacoast in southwest Kwangtung province.

(A Hong Kong dispatch said some garrison troops had fled east on the Canton-Kowloon railway but a red column was rushing to cut them off.)

Raymond ran shouting from the yard, but he was too late by a few feet. The Northwestern locomotive struck and fatally injured the little girl.

**Suicide Try Foiled**

Champaign, Ill., Oct. 13—(AP)—A 44 year old woman, clad only in lace panties, climbed back and forth along a foot-ladder, third story ledge outside her apartment for 20 minutes early today.

She finally jumped into a net held by firemen and was taken to a Psychopathic hospital.

Brown formerly was assistant U.S. attorney practicing in Federal Courts in Peoria, Quincy, and Springfield.

State Treasurer Ora Smith said he "regretted" Brown's decision to resign.

**Health Service Tells Why Smog Sickened 6,000**

Washington, Oct. 13—(AP)—The five-day smog which sickened about 6,000 persons at Donora, Pa., a year ago was the result of an unusual combination of warm, stagnant air and heavily smoke-polluted fog.

The agency's report said 43 percent of the population of Donora and nearby Webster was made ill, confirming the widespread effect of the poisoned air as disclosed in surveys last winter. Deaths totaled 20.

The 200-page report was released by Surgeon General Leonard A. Scheele.

He said Donora probably had another serious smog period in April 1945—"the vital statistics show there were almost twice as many deaths in the town as in any ordinary April or any ordinary month."

And he warned that the circumstances could occur again there or in other highly-industrialized areas. To prevent such a recurrence, Scheele recommended that:

1. Fog-affected industrial centers keep a close watch on weather conditions.

### Hands Operators 35c A Ton Plan To Satisfy UMW

White Sulphur Springs, W. Va., Oct. 13—(AP)—John L. Lewis talked today about possible government seizure of the coal mines to end the strike. But President Truman said he has no such plans.

Operator sources discounted any possibility of outright government operation, saying there is no legal way to bring it about.

Lewis listed a "bona fide" seizure as the government's alternative for settling the coal strike—rather than by injunction or the kind of federal operation there has been in other years.

He brought this out at a news conference in which he set a price of 30 to 35 cents a ton for ending the walkout by negotiation.

**No Increase To Consumers**

He said this increase could be absorbed from profits and would cost the consumer no more. Operators denied this.

The UMW chief said the union doesn't want seizure and is against nationalization of mines. He declared that the union is willing to go it alone and "whip" the soft coal operators.

But, he added, if things get so bad the government feels it should "do something," then it should choose seizure and outright operation.

In the past, Lewis said, the government has run the mines by telegram and operators still received their profits.

Throughout the news conference, Lewis seemed to be hinting he would resist as far as possible any application of Taft-Hartley law machinery for settling labor disputes.

The union president, who has been fined in the past for defiance of statutes, did not say specifically what kind of resistance there would be.

**Will Not Take Over Mines**

President Truman told his Washington news conference he did not plan to take over the mines.

Questioned about his powers of seizure, Mr. Truman said he would investigate them if the step seemed necessary.

Lewis at his conference here said he did not know just how the government would go about taking over the mines. He acknowledged there were many legal angles to consider.

Operators here did not comment immediately. But at Charleston, President Joseph E. Moody of the southern coal producers discounted possibility of federal seizure.

"There is no legal way to do it," Moody said.

He added that "Lewis covered himself, obviously anticipating that there might be government interference of some sort."

Lewis filled his long discussion with frequent castigations of powerful financial and steel interests which he said were delaying a coal settlement while they "battle it out" with the CIO United Steelworkers on strike for free pension.

**Rock Island FE Workers To Talk Over UEW Merger**

Rock Island, Ill., Oct. 13—(AP)—Officials of all CIO United Front Equipment workers in the Rock Island district tomorrow will discuss the proposed FE merger with the CIO United Electrical Workers.

Arvid Sheets, president of the FE local at the East Moline works of International Harvester company, said about 10,000 farm implement workers will be represented by the officers meeting tomorrow. Officials meeting will include officers, stewards and grievance committee men of the various locals.

After the meetings tomorrow Sheets said, each member of each FE local will get a copy of the proposed merger plan agreement and will be given an opportunity to vote on it in a national referendum.

Sheets said the UFE "has offered an agreement to FE which will allow us to continue our union with the full autonomy and rank and file representation for which the Farm Equipment workers are noted."

**Free 3 Questioned In Gangland Death**

Chicago, Oct. 13—(AP)—Three men questioned in the gang style slaying of a minor hoodlum Monday night were freed today in felony court.

The hoodlum, Elmer (Whitey) Madson, 45, was shot five times as he left a northwest side confectionery which police said was a receiving station for stolen goods.

Judge William V. Daly today dismissed disorderly conduct and receiving stolen property charges against Joseph Tabet, 38, a salesman in the confectionery; and Walter Burns, 44, and Joseph Salemi, 40, turndown, the president said, refusing to say whether it was what a mines were run for the benefit of (newsman called the power lobby or the people, not the mine owners.

## U.S. B-50 Bomber Crash In Britain Kills 12 Airmen

Isleham, Eng., Oct. 13—(AP)—Twelve airmen bound from Britain to Helgoland on a practice mission were blasted to death today by the plunge of their U. S. air force B-50 bomber into a wheat field with three tons of live bombs aboard.

The countryside for 12 miles around was jarred by the blast. None aboard escaped. Bodies of the men and parts of the plane were hurled over wide areas of the field. The main explosion gouged out a crater ten feet deep and 30 feet wide. Separate blasts pock-marked the ground.

Hundreds of gallons of flaming, high octane gasoline sprayed over the field, setting fire to nearby barns and several haystacks. Windows were broken and ceiling plaster fell in village homes near the scene.

The B-50 is designed to carry the atom bomb. It is a larger version of the four-engine B-29 superbomb and ranks second among the American air force's bombers only to the controversial B-36. It is known to have a cruising range of 6,000 miles.

The last plane belonged to the 65th Squadron of the 43rd Bombardment Group, which came to England Aug. 15, from its base at Tucson, Ariz., for 90 days of operational training.

**Nehru Says India Can't Be Neutral In Aggressive War**

Washington, Oct. 13—(AP)—India "cannot be and shall not be neutral" where freedom is menaced or justice threatened or aggression takes place, Prime Minister Jawaharlal Nehru told congress today.

The slender leader of India's millions addressed first the house of representatives, then the senate. He wore western style clothing and spoke in clear, easy English.

The lawmakers received his assurance with loud applause.

Nehru, who is in the United States on a month-long good will tour, rejected the idea that conflict is inevitable. He said that "every prayer that an Indian raises ends with an invocation to peace," and he asked America to understand his country's approach to international problems.

Mahatma Gandhi, he said, "taught us a technique of action which was peaceful, and yet it was effective and yielded results which led us not only to freedom but to friendship with those with whom we were until yesterday in conflict."

**Estimates Parks Air Line Will Not Start For Months**

Washington, Oct. 13—(AP)—Air line attorneys estimate that it will be months before passenger flights start over the Parks midwestern feeder routes.

Cities along the so-called Parks system, which stretches through 11 states, have been waiting for air service for three years.

The Civil Aeronautics board certificated the routes to Parks Air Line of East St. Louis, Ill., but the carrier never has started operations.

The CAB must decide now what to do about the routes. Attorneys for 10 carriers seeking all or parts of the Parks system are attending a CAB examiner's hearing here. They told a reporter they are in agreement on one point: the board is anxious to expedite a decision and the case is being pushed along rapidly.

However, their estimate as to when flights actually might begin range from six months to a year.

**L.W.V. OPEN MEETING AT LIBRARY FRIDAY**

The League of Women Voters of Morgan county will hold its monthly open board meeting at 7:45 p.m. Friday in the east basement room of the public library. Mrs. George Carpenter will preside.

**Truman Says Senate Made Mistake In Rejecting Olds**

Washington, Oct. 13—(AP)—President Truman today described as a bad thing the Senate 33 to 15 rejection of his nomination of Leland Olds for a third term on the federal power commission.

He also told a news conference he is not considering seizure of the soft coal mines and he sees no need for changing our fundamental defense policies.

Answering a barrage of questions regarding the Olds nomination, which the Senate turned down early today after a torrid debate, Mr. Truman said he could not give Olds a recess appointment after Congress adjourns because the Senate had rejected him.

He said he will have to appoint a new commissioner, but has no one in sight.

Reporters will have to read the record to find the reasons for the 400,000 miners would return to work under a "bona fide" control—if the mines were run for the benefit of the people, not the mine owners.

## Denfeld Hits Defense Dept.

### Says It Is Trying To Drop Marine

Washington, Oct. 13—(AP)—President Truman today described the nation's defenses as adequate, although the Navy's No. 1 officer complained that naval aviation and the Marine Corps are in danger of being scrapped.

Adm. Louis E. Denfeld, chief of naval operations, made the complaint before the House Armed Services committee, investigating a bitter row in the high command over grand strategy.

Denfeld said that under the unified defense setup, the army and air force can actually control the navy, and often do. He said also that the air force has argued for complete elimination of the carrier task force, the "most powerful instrument of modern warfare." The army, he said, has urged its "serious reduction."

**Truman Standing Pat**

Right after the chief of naval operations had smashed at handling of the unification law and the navy's treatment in the Pentagon's top levels, reporters heard from President Truman that he sees no reason to change fundamentals of defense policy.

Mr. Truman declined comment on testimony of Denfeld or other admirals who have rapped air force emphasis on the B-36 for atom bombing while they contended naval aviation is being neglected. He said the defense policy is adequate.

It is fixed, he said, by the president as commander in chief after consultation with the defense secretaries and the chiefs of staff and is based on the advice of the chiefs of staff.

Besides Denfeld, Fleet Admiral Chester W. Nimitz and Admiral R. A. Spruance, retired head of the naval war college, testified today. They credited Russia with plenty of submarine power and indicated they are worried about it.

**Negotiators Step Up Efforts To End MoPac Ry. Strike**

St. Louis, Oct. 13—(AP)—Negotiators announced late today they plan to step up their efforts to end the 35-day-old Missouri Pacific strike.

After they wound up a fourth day of talks on 282 union claims that led to the walkout, Trustee Guy A. Thompson of the railroad announced:

"We are not making the speed we would like and therefore will start 30 minutes earlier tomorrow and will have a session tomorrow night."

Thompson said it is "possible but doubtful" that negotiations will be completed this week.

Under a settlement formula accepted by both sides last week, the railroad and the four striking unions are to agree on some method of resolving any claims not settled by negotiation. The 5,000 striking trainmen are to return to their jobs as soon as such an agreement is reached.

**Two Navy Planes Collide On Coast**

San Francisco, Oct. 13—(AP)—Two navy attack bombers collided off the California coast today and plunged into the sea.

Naval authorities said the planes, carried only their pilots and both men were presumed lost. (Names withheld.)

The planes, Douglas Skyraiders, were in a flight of four on a gunner mission. They collided 35 miles off Point Reyes.

**'Swindlin' Sam' Engel Announces Video Show Plans**

Chicago, Oct. 13—(AP)—Sigmund "I am attractive to women" Engel, who has kept himself in the plush most of his 73 years by bilking wealthy women, looked forward today to a "million dollar" career in the entertainment world.

The phit-sized Romeo announced his ambitions last night, a few hours after his lawyers sprung him from the county jail by putting up \$37,500 bail. "Swindlin' Sam" had been in jail three months, awaiting trial on a long list of state and federal swindling charges.

Engel told of his plans on a radio and television program. On the possibility that the pending charges might interfere with such a future, Engel said merely, "I am no swindler."

In an interview later, he stressed four points: "I am attractive to women. I am a born actor. I am a gentleman. I am not a swindler."

**CHARLES MORSE III LEAVES \$800,000**

Chicago, Oct. 13—(AP)—An estate estimated at \$800,000 was left by Charles H. Morse, III, 51, vice president of Fairbanks Morse and company. He was killed July 9 in the crash of a company plane near Roanoke, Ill.

His widow, Marie, and a daughter and two sons were named as heirs in papers filed in probate court today.

## PAY RAISE FOR CONGRESS?

Members of congress, who now get \$12,500 a year and an additional tax-free \$2,500 expense allowance, will receive \$20,000 to \$25,000 if a bi-partisan pay raise movement meets success. Legislation along these lines is expected to be introduced early in the 1950 session.

Congress has given the president a handsome pay boost and has been increasing the pay of all kinds of lesser employees. Naturally it sees no reason why some good news shouldn't be added to its own pay envelopes.

Public servants deserve good pay, but one trouble in Washington today is that congress doesn't realize what a tough time some taxpayers are having in trying to make ends meet. They sometimes lose sight of the fact that what is right for Washington isn't always right for everybody else.

## BLAME THEMSELVES

American industrial productivity is 50 to 90 per cent greater than that in Britain, according to a British production team which has made its report on findings in the United States. It credits U. S. leadership mainly to productivity consciousness and a realization by both management and workers of the benefits in high output.

The British experts criticize their own restrictive trade practices, industrial policies and wasteful production methods. They will not look to the government for aid, but warn that industry must put its own house in order. They hold that the alternative to higher production is starvation.

That is a fair and realistic attitude. British industry, of course, does not consider the Labor government a bargain—this study was not intended to touch in that subject—but there is much that it can do by its own initiative and it should waste no time doing it.

## Christian Church At Woodson Will Be 80 Years Old

The Woodson Christian church will observe its annual homecoming next Sunday, with the observance of Laymen's Sunday in the morning service, a pot-luck dinner at noon, and an address during the afternoon session by Rev. Chester P. Hensley of Bloomington, the state secretary of the Illinois Christian Missionary society.

This will be the 80th anniversary of the dedication of the present sanctuary of the church. The church was founded in the country east and north of Woodson and was then known as the "Concord" church, located near the present Asbury Methodist church. In 1869 the congregation moved to Woodson and built the main portion of the present church structure—the single one room sanctuary.

The history of the original church which was organized something over 100 years ago, is uncertain as the original records have been lost, but it was one of a number organized in this part of Illinois by Barton W. Stone, one of the original founders of the brotherhood, who moved to Illinois from Kentucky about 1832 and lived on his farm southeast of Jacksonville.

At the morning worship service at 10:45 o'clock the church will assist the minister, Rev. A. D. Hermann, in the observance of Laymen's Sunday. The pot-luck dinner will be at 1:00 o'clock, with the after dinner program starting at 2 p. m. The speaker for the occasion, Rev. Hensley, has been the state secretary of the brotherhood for the past three and a half years.

William Slater is chairman of the occasion.

## Blast Frees Accused Man

Sao Paulo, Brazil.—P—The district attorney of Taubate, Sao Paulo state, was summing up. The defendant was a farmer accused of stabbing to death a neighbor. His plea: self-defense. He claimed the neighbor tried to shoot him.

"Gentlemen of the jury," said the D. A., brandishing exhibit A, an old pistol, "this is a prehistoric piece. As anybody can plainly see, it won't work at all." Click, click, click, went the hammer as he pointed at the jury, the public and a clock.

Became: went the thing when he pointed at the judge. Near miss. Quick recess to re-establish order. Quick huddle by the jury. "Your honor," said the foreman, "we find the defendant not guilty. The district attorney just clinched his defense."

## CROWING HEN LAYS EGGS

Fairbury, Neb.—P—On the Adolph Schierkolk farm near Fairbury a bird had a comb and wattles like a rooster. It also crowed. But its body resembled that of a hen and it was known to have laid eggs.

## What Makes You Think You Want To Buy A House?

BY SAUL PETT (For Hal Boyle)

New York, Oct. 12.—P—If you're having difficulty buying a house, pull up a chair and listen. I'm an authority on the subject.

I have been buying a house every Sunday for three years. I have driven 15,682 miles (in just the suburbs, of course) and I have spent \$322.43 on gas and oil but I have been able to do all this with the same car, the same wife and the help of only three psychiatrists.

House-hunting is not as confusing as you might think. Just don't buy on impulse. Don't buy on faith. Be practical. Make sure you answer all the vital questions before buying:

**Called A Ranch House**  
Will the style of architecture be outdated in five or 50 years? Is it colonial, Cape Cod, California Bungalow, modern, English tudor, early American, French provincial, Dutch colonial, Georgian, Spanish, Normandy or ranch? Be careful, practically everything these days is called a ranch house. All some builders need is a small, high window in the bedroom and they think they've got a home on the range.

Who owns the lot next door and are they planning a glue factory?

## Bluffs Household Science Club Has Program On Music

Bluffs—The Bluffs Household Science club met in the civic club rooms Tuesday afternoon, with members of the Bluffs Junior Women's club as guests. They were welcomed by the president, Mrs. J. M. Pine.

Reports included the 20th district board meeting held in Jacksonville and attended by Mrs. E. J. Kearney, vice president. The report was read by Mrs. James Baird, corresponding secretary. The club voted to subscribe 100 per cent to the "Illinois Club Woman." Thirty members answered roll call. The program chairman, Mrs. William Kilver, introduced Walter E. Meyers, of the State Library, who gave a life sketch of Stephen Foster and played records of Foster's works. The music chairman, Mrs. Wendell Brackett, introduced Harold Eden who sang "Beautiful Dreamer" and "Jeanie With the Light Brown Hair."

At the close of the meeting the hostesses, Mesdames Harvey Vorman, George Krusa and Oliver Chambers, served refreshments.

## WHITE HALL

White Hall—Mrs. Addie Mackey, a former resident of White Hall, who makes her home with her son, Clarence Mackey, in Jacksonville, suffered a fractured leg in a fall at her home. She is in Our Saviour's hospital.

Elmer C. Johnston and daughter, Virginia, and Joyce Ann Forrester spent Saturday in Springfield.

Mrs. Fred Hyle visited her son and daughter-in-law, Mr. and Mrs. Kenyon Hyle in Whiting, Ind.

Mrs. Carrie Hubbard, who is enjoying a two-weeks vacation from the Dorsey Furniture store, will visit relatives in Havana, Kincaid and Alton.

Mrs. James Tilley and son Jimmy with her sister, Mrs. Joe Dawson and son and Mr. and Mrs. Roscoe Orten Jr. enjoyed the Veiled Prophet parade in St. Louis. Mrs. Margaret Orten accompanied her daughter, Mrs. Tilley, as far as East Alton, spending the day there.

Are metal cross pieces between floor joists better than wooden bridging?

How good is the commutator?

Are the rooms big enough for the furniture and the children? Which will have to go first?

Are thin metal window frames better than wood, casement better than double hung sash?

Is there a full basement?

Do you really like a picture window and what do you get a picture of and what will the neighbors get a picture of and those small little sections which open, will they be enough to carry a breeze?

How good is the insulation?

Is the sewage already in or will a picturesque old man come to test up your front lawn every two years or so?

**Did The Agent Say:**  
What did the agent say about condensation? Is there a vapor seal? Is the plumbing brass, copper, wrought iron, cast iron and does it make any difference?

Does the living room have a wall made all of glass brick and do you think that looks like a public comfort station?

What will happen when it rains? Do you want a house like 100 other houses in a development or do you want to pay more to be distinctive?

And why this terrible urge to be distinctive? Are you undemocratic? Are you trying to fulfill a neurotic need to be different and what happened in your childhood to start this complex?

And what makes you think you want a house?

I don't. I just like to have some place to go Sundays.

THE DOCTOR SAYS

# Cancer Symptoms Should Be Known By Everyone

By EDWIN P. JORDAN, M. D.  
Written for NEA Service

When cancer is found early enough the chances for cure are good. For this reason it is extremely important that everyone should know what the symptoms are and should send them to the doctor for tests to decide whether early cancer is present or not.

There is more cancer in the gastrointestinal tract (stomach and intestines) than in any other one system of the body. Therefore, any loss of weight which cannot be explained by dieting or other obvious cause is suspicious. Bleeding from the intestines or the presence of any mass tumor, or swelling inside the abdominal cavity are causes for investigation. Difficulty in swallowing or unexplained loss of appetite should also result in a prompt visit to the physician.

The next most common locations for cancer are in the breasts and in the uterus or womb. Any lump in the breast is reason for examination. Any change in the nature of the bleeding from the womb or any discharge also require investigation.

**FOUND IN OTHER PLACES**  
Cancerous growths can develop in other places, such as the lungs, bladder or kidney, or the mouth. Sores in the mouth, on the tongue or on the skin which do not heal quickly may be cancerous. Lumps appearing anywhere on the body should always be suspected. Unexplained bleeding from any of the openings of the body is always cause for immediate examination.

Some people are abnormally afraid of cancer and go from doctor to doctor thinking that they have the disease but are not being told the truth. This condition is called cancerphobia. The suffering which such people undergo is real and their distress is great. In order to keep their minds as free from fear as possible they need to be reassured every so often that they do not have cancer.

THE DOCTOR ANSWERS

By Edwin P. Jordan, M. D.  
**Question:** What is health coffee?  
**Answer:** By this term I presume you mean some coffee which has had most of the caffeine removed or some form of drink which does not contain caffeine but which resembles coffee in taste or in some other respect. Caffeine is the active drug in ordinary coffee.

## Bones Learns To Like Taxis

Springfield, Ill.—(P)—Bones, an orphan dog, is a regular non-paying customer of cab drivers here.

Bones was adopted by 24 cabbies a year ago when he didn't know where his next can of dog food was coming from. He liked his owners, but he didn't like their cabs. The black and tan hound broke his front leg six months ago.

Since then he discovered a cab is mighty handy transportation. If a driver starts to pass him, Bones takes after him. When the cab stops he climbs in.

## Sinkiang Traders In Kashmir

Srinagar, Kashmir—(P)—Tall, fur-capped Muslim traders from China's Sinkiang province are again making their way through high Himalayan passes to sell carpets and silks in Indian-held Kashmir. The traders' caravans take 40 days for the 400-mile journey. On the hard trip from Yarkand and Kashgar through the 18,000-foot Karakoram Pass, big shaggy yaks carry the goods. At Ladakh, Buddhist province in western Kashmir, the traders change to horses to the trip to Srinagar.

The journey is a tough one, but some traders take their families along. Some die in the freezing altitudes. Others suffer severe frostbite. The caravan now in Srinagar is the first in the last three years. Fighting between India and Pakistan troops blocked the path last year.

On the homeward trek, the caravan carries tea, soap, dyes, woolens, cotton cloth, kerosene and spices.

## Refugees Use Governor's Palace

New Delhi, India—(P)—The farmer and the government worker have moved in on Government House, once the exclusive preserve of the British ruler. The governor-general's estate is expected to produce wheat, maize, vegetables and fruit worth \$10,500 this year. Vegetables and fruit have been grown before, but government officials say no victory tore up the estate's beautiful lawns to plant wheat and maize. Additional lawns will be planted to wheat next year.

Government House also is being used to ease the accommodation shortage. Six big rooms, including the famous Durbar hall, now house the new national museum of India. Unoccupied staff quarters in the estate have been given to ministries for accommodating their officials. About 600 refugees live in barracks in the area.

## NO DRIVER'S LICENSE, FINED \$10 AND COSTS

The case resulted from an automobile accident Wednesday afternoon in which Miss Stemmons' mother was painfully injured, and her brother and a hitchhiker were slightly injured.

## Color Mirror Aids Television

New York—(P)—One of the latest devices to be used in color television research is a dichroic mirror. It has the ability of passing one color while reflecting another.

Thus, it can be employed where it is desired to have the image of one picture tube come directly

through while at the same time reflecting images of one or more other tubes. By this method one color can be impressed on the other optically to provide a complete color image in a direct viewing receiver.

### CHICAGO LIVESTOCK MARKET REPORT

Chicago, Oct. 13.—(P)—A steady to lower tone turned up in livestock trading today. Butcher hogs were mostly 25 cents lower, sows steady. Slaughter cattle were steady to 50 cents lower, vealers and stockers steady. Lambs and yearlings were steady, ewes weak to 25 cents down. Most good and choice barrows and gilts sold from \$16.50 to \$18.25. This was the practical top price but a load of choice grade reached \$18.50. Sows mostly brought \$17.75 to \$17.50 with a few making \$17.75. An estimated 1,000 hogs were held over unsold.

Good to low-choice steers and yearlings ranged from \$28.00 to \$32.25, and the actual top topped at \$34.50, paid for two loads grading choice. Medium to low-good heifers were \$20.00 to \$25.50, a load of choice hitting \$31.00. Good cows ran from \$17.50 downward, good sausage cuts from \$19.50, and vealers from \$27.00.

Small lots of good and choice native woolled lambs were \$23.75 to \$24.00, the top for the day, and good and choice yearling wethers fetched \$21.00 for one deck carrying mostly fall-shorn pelts. Ewes ranged downward from \$9.00 with choice kinds scarce.

Estimated receipts included 9,000 hogs for sale, 3,500 cattle, 500 calves, and 2,000 sheep.

### SOYBEANS OFF ON CHICAGO MARKET

Chicago, Oct. 13.—(P)—Soybeans dropped several cents on the Board of Trade today, weakening the rest of the market. Losses in other pits were limited mostly to fractions. Hedging pressure was a factor in the soybean sell-off. Another was the splendid harvesting weather throughout the mid-west, expected to speed up marketing of both soybeans and corn.

Corn futures sold off with a decline in cash prices. Receipts were fairly large today, particularly by volume.

Wheat was under mild pressure all day. The market ignored senate passage of the Anderson farm bill and agriculture department's Oct. 1 crop forecast.

Receipts were: wheat 21 cars, corn 411, oats 42, rye 4, barley 34, soybeans 140.

Wheat closed 1-1 lower, December \$2.11 1/2-1, corn was unchanged to 1/2 lower, December \$1.17 1/2-1. Oats were 1-1 higher, December 68 1/2. # Rivers of grass...

"Rivers of grass" flow across this country. Millions of cattle and lambs have spent the spring and summer turning grass into meat. Now they are ready for round-up and shipment. So in October they move to the markets—in a great flood of livestock. Many go direct from the range to meat-packing plants. Others go to the feed lots to be grain-finished. But, either way, these meat animals are mostly grass—which folks cannot eat—converted into appetizing, nourishing meat for people. They are adding greatly to the health and wealth of the nation. Without this "livestock economy," in which you and we are engaged, 779,000,000 acres of our United States would produce little food for human use.

Whether you ship your cattle and lambs early or late—whether it's to Chicago, Ft. Worth, Denver or any of scores of other markets—you'll find buyers there to bid for them. With many others, Swift & Company helps provide the year-round daily market which is as essential to your business as it is to ours.

Your grass, turned into meat, is a vital raw material of all meat-packing operations. There is keen competition for it. Every meat packer and commercial slaughterer (and there are more than 18,000 of them in the United States) must have a regular supply of meat animals. Each buyer knows the high bid gets the animals. He knows also that his own price range is set by supply and demand. He sees your steers and lambs as so many pounds of meat and by-products. The price you are offered for your livestock is governed by what the meat packer can get for the meat and the by-products.

Soda Bill Sez... The communist believes no man should be rich; the capitalist believes no man should be poor.

### Your Markets for Meat

In the early days of our country, livestock was produced close to the point where it was eaten. But as the population grew, those conditions changed. Today two thirds of the people live east of the Mississippi, while two thirds of the livestock is produced west of that river. To bridge that gap of more than 1,000 miles is no small job. Millions of head of livestock must be processed and the meat distributed to where it is wanted. The facilities of nationwide meat packers provide you with markets for your meat animals; move the meat to cities and towns where it is in demand.

Swift & Company, and other nationwide meat packers, sell meat to retailers wherever there are people who want to buy it... no matter how far that may be from your farm or ranch. We bring you the benefit of national, rather than local, demand. This means that, in selling your livestock, you choose between the price created by local demand, or the price created by the national demand of millions of meat eaters.

We work hard to encourage people to serve meat oftener—to eat more of it... And we are proud that our nationwide system is one of the most efficient, low-cost food distribution systems in the United States.

### Martha Logan's Recipe for SAUSAGE AND CORN BREAD

(Yield: 6 servings)

1 lb. pork sausage meat  
1 1/2 cups corn meal  
1/2 cup sifted flour  
1/2 tsp. salt  
1 tsp. baking powder

1 tsp. soda  
1 cup sour milk  
1 egg  
2 tbsp. pork sausage drippings

Brown pork sausage meat thoroughly in heavy skillet (about 9 inches in diameter). Drain off drippings. Sift together corn meal, flour, salt, baking powder, and soda. Combine egg and milk and heat until well combined. Add 2 tablespoons drippings to milk and egg mixture. Pour liquid into dry ingredients and stir just until mixed. Pour batter over pork sausage in heated skillet. Bake in moderately hot oven (450°F.) until well browned, about 30 to 35 minutes. Serve hot as main luncheon dish.

### Quotes of the Month

"We, as ranchers, are not sufficient unto ourselves. In fact, we are only the beginning of the beef line. Of equal importance are the feeder, the processor, the distributor and the consumer. Disregard the rights or welfare of any of these, and sooner or later we suffer."

Sam R. McKelvie  
Pres. Sandhills Cattle Ass'n

"He gave it for his opinion that whoever could make two ears of corn, or two blades of grass, to grow upon a spot of ground where only one grew before, would deserve better of mankind, and do more essential service to his country, than the whole race of politicians put together."

Gulliver's Travels (written in 1726)

### Supplement that Poor Forage

by Robert D. Rasmussen  
New Mexico A. & M. College

Dried-up pastures and winter weather create the same feeding problem for the cattleman. They simply mean that you have lower quality feed and less of it. And you have little choice as to what you can do about it. You can let the cattle eat what they can find. In this case you're likely to take a weight loss on your cows. You'll also take a chance on a weak calf crop. Or you can feed a supplement. If you feed enough of the right kind, your cows and unborn calves will come through in good, healthy condition.

California experiments on deficient range showed the cow herd that got a protein supplement produced a 91% calf crop. Cows on similar range, without a supplement, produced a 61% calf crop. Arizona found that feeding supplement increased the weight of the calves at birth by 10 pounds.

The amount of supplement needed varies. Cows carrying calves, and young stock require more protein than open cows or mature animals. A safe rule to follow is to watch the condition of the stock. Keep them healthy and thrifty.

Research by the New Mexico agricultural experiment station shows that during the winter months range forage is most critically short of phosphorus as well as protein. While some of the cake supplements are high in phosphorus as well as protein, most ranchers over the state are using mineral supplement for year-round use. A mineral supplement containing at least 6% phosphorus should be made available at all times to range cattle. Experiments have shown that year-round use is better and more profitable than seasonal use.

Here's a goal for cattlemen. Use whatever kind and amount of supplement is necessary to keep your cattle healthy and thrifty. (Editor's Note: The principles of animal nutrition discussed above apply in all parts of the country.)

## Governor Says State In Revenue "Squeeze" The Same As Cities

Springfield, Ill., Oct. 13 — (AP) — The demand of cash hungry cities for a special legislative session to help them out met a cool reception from Governor Stevenson last night. A few hours after the request was voiced by the Illinois Municipal League, the governor told a league convention banquet:

"The cities are in a squeeze—and so is the state."

Stevenson said the 1951 General Assembly will have to "very substantially increase" state revenues to keep spending at present levels, let alone start shelling out money to cities.

Only a "miracle" can change this outlook, he said.

In a resolution adopted yesterday, the League urged the governor to bring state lawmakers back to Springfield "as soon as possible."

The financial plight of cities is "acute and becoming worse," the resolution said, and is handicapping "necessary municipal functions."

Cities Need More Funds

It called for early legislation to broaden local money raising powers or "to make available to municipalities additional sources of revenue."

Stevenson hinted at obstacles to meeting either demand at a special session.

He suggested that the league send him, along with the resolution, a copy of the legislation it has in mind and the names of 102 members of the house and 34 senate members guaranteed to vote for it.

That's the number of votes required in a special session to make legislation effective immediately.

At its regular meeting early this year, the assembly refused to approve major city aid plans. At that time, only 77 house and 26 senate votes were needed for passage.

Lawmakers turned thumbs down on enlarging local business licensing powers. A program for allotting \$34,600,000 to cities on a per capita grant basis in the next two years also failed.

The governor's views on the improbability of accomplishing much at a special session were echoed by several convention delegates.

Opposes Resolution

Mayor Cecil Cone of Bloomington opposed the resolution because "we can't get anywhere."

Arthur G. Lindell, Chicago budget director, told the convention that little could be accomplished without

first winning over groups influential with the legislature—manufacturers, businessmen and retailers.

Lindell said Chicago officials last spring considered pushing one possible solution for money problems but dropped it when retailers said they would fight it.

The discarded proposal was to change the law permitting cities to levy a one half cent sales tax. The change would have removed the requirement that local voters first give their approval.

Cities Should Face Problem

Rep. Reed F. Cutler of Lewistown, Republican minority leader in the house, scoffed at the idea as an attempt by cities to "pass the buck" to the legislature. Cutler said citizens should be sold on the local sales levy if the need for it were effectively demonstrated.

Other resolutions adopted by the convention:

Favored exemption for cities from federal taxes on "municipally operated amusements."

Called for a state constitutional amendment to permit cities to collect and retain the utility tax and other revenues collected within their boundaries by the state.

Urged state highway officials to smooth the way for obtaining certain types of federal road grants by having "origin and destination" surveys made on traffic around metropolitan centers.

The league referred to its executive committee a resolution protesting pending congressional legislation to curb federal power commission authority to regulate natural gas pipeline corporations.

RELIEF CORPS PREPARES FOR DISTRICT MEETING

The Woman's Relief Corps will hold its regular meeting Friday afternoon at 2 o'clock at the Legion Home. Arrangements will be made for attending the district convention to be held next Monday, Oct. 17, at Barry, Ill. Members not having transportation should notify the president.

TURFMAN ILL — Col. Matt Winn, above, the "grand old man" of the turf, was reported in serious condition following a major operation at a Louisville, Ky., hospital. It was the second operation in two weeks for the 88-year-old president of Churchill Downs.

## Ruth Ford Returns From Missionary Station In China

Carrollton—Miss Ruth Ford, a medical missionary from the Southern Baptist association, has returned to the states for the second time because of war conditions in China.

Miss Ford is the daughter of the late W. P. Ford and Mrs. W. P. Ford of Memphis, Tenn., and the niece of Miss Nita Ford of this city, and is well known here.

Miss Ford's mother met her in California, from where they went to Grant's Pass, Ore., to spend a few days at the home of Mrs. Charles Kinney. They are returning this week to their home in Memphis. Miss Ford is expected to visit here in November.

Miss Ford, who received her high school education here, has been in missionary work in China over ten years. She was held in a concentration camp by the Japanese for several months before returning home on her last visit. She was ordered to

## THE DOCTOR SAYS Stomach Ulcers Need Attention For Early Check

BY EDWIN P. JORDAN, M.D.

Written for NEA Service

Ulcers of the stomach are extremely common and seem to be increasing. Some believe that this is because of the strain of modern living. Although it is true that there is probably more excitement and wear and tear on the nervous system brought about by noise, automobiles, speed and the like, than there was 50 years ago, this point is difficult to prove.

Ulcers occur both in the stomach itself and in the duodenum, which is that portion of the intestine into which the stomach empties. The ulcer starts as a small defect in the lining of the stomach or mucous membrane, and becomes deeper and larger around as it develops. Eventually it may become deep enough to reach the tiny nerve endings which carry pain sensation to the brain.

All treatments for ulcer have the

common purpose of relieving the irritation on its surface, that is in the stomach or duodenum, so that the ulcer has a chance to heal. The most irritating substances which come in contact with ulcers is the hydrochloric acid manufactured by the stomach itself.

In addition to the pain and distress of the ulcer there are two serious complications. When an ulcer eats across a small blood vessel, bleeding takes place. Sometimes this is slow and the blood merely passes down the intestinal tract. At other times the bleeding may be rapid, fill the stomach and cause vomiting. In either case bleeding is a sign requiring prompt and serious attention.

The other complication is perforation—the ulcer eats entirely through the mucous membrane and the wall of the stomach and makes a hole into the abdominal cavity. This raises the danger of peritonitis and a prompt operation is necessary.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

**THE DOCTOR ANSWERS**

BY EDWIN P. JORDAN, M.D.

Question: A boy 6 years old bites his fingernails and toenails until they fester. What can I do to stop

it? Answer: This is probably a nervous reaction. The only thing that can be done is to try to find out why the child is so nervous.

## Orangutan Has Big Appetite

Brookfield, Ill.—A two-year-old orangutan at the Brookfield Zoo recently survived a night of freedom to eat all she wanted.

Tia, the ape, sat on a long director's table eating a banana when Director Robert Bean entered the room the next morning. It, as well as his office, was a mess. Ink spotted a rug. Paper littered the floor and drawers were pulled from a desk. The icebox was raided.

Her menu had consisted of five bananas, a half dozen chocolate bars, and several apples. She topped it off with a double helping of cleansing powder. She even downed a powerful emetic administered by Bean. Tia didn't even burp.

## New Auto Tire Has Springs

London—(AP)—A British tire firm has developed a non-skid tire with steel coil springs in place of the usual tread. The springs are embedded in the tire during the vulcanizing process.

The company, (Tyresoles, Ltd.), calls the invention "Wyrosoles." Sir Patrick Hamilton, its chairman, said engineers agreed that for safe driving on wet roads the film of water under the tire must be shattered and dispersed quickly. The company claims the springs do this efficiently.

Chicago — (AP)— Restaurateur Irvin Benjamin tossed out his huge TV set when he discovered his customers

were not stimulated to buy drinks. He substituted a movie projector. He believes it is the answer to a bartender's prayer.

He says 16 mm movie "shorts" shown with a sound projector is booming his drink business. He has found that the type of film the customer sees can actually affect the number of drinks he buys.

The power of suggestion doesn't work so well with water scenes. But the customer gets thirsty when a desert travelope hits the screen. A shot of people sipping drinks is likewise tempting. If it's comedy the customer falls into a generous mood, and that's even more conducive to thirst quenching, Benjamin said.

Officers were elected and Chet Harris of Illinois college was elected president; Julie Hamill, vice president, and Dottie Parsell, secretary-treasurer.

The group meets each Sunday night at the manse and all college-age young people are invited. Next Sunday the topic will be, "Our Denominational Backgrounds" and after the discussion a wiener roast will be held in the yard.

## Routt Keeps Football Conference Lead With Win At Chandlerville

Playing an inspired brand of football, the Chandlerville Comets, who had lost the 2-C conference game to Routt last week, finally submitting to a 29-7 defeat in the hands of the league-leading Routt six-manners under the Chandlerville lights last night.

Chandlerville was definitely the underdog team last night as they came from a 29-7 deficit to notch two quick touchdowns in the waning minutes of play and hauled the score up from a decisive defeat to a near miss.

Something was missing in the usually precision-like methods of Paul Stroud's Rocket club that, with last night's win, counted its fourth six-man victory this season. They maintained their lead in the 2-C conference with a 4-0 record.

**Penalties Hurt Rockets**

The Jacksonville east-siders lost several scoring opportunities when penalties dragged them back. Three times the Stroudmen were on the Chandlerville one-yard marker only to have the officials set them back 15 yards for various misdemeanors.

It was the catlike-Sonny Loneragan running against Chandlerville's speedy Jack Marcy in the scoring department. Loneragan zipped around his favorite ends for two Rocket touchdowns. Marcy tallied all three of his clubs markers.

## Meredosia Wins Homecoming Tilt With Arenzville

Meredosia—The Meredosia Indians treated a capacity homecoming crowd to a 24-7 six-man football win over an invading Arenzville bunch here last night. It was a 2-C conference game.

The Arenzville gang scored their lone touchdown in the first three minutes of play when Don Wessler circled and from the Don 14 yard line.

A pass for extra point gave the Raiders a 7-0 first quarter lead.

The Indians climbed back into the ball game late in the second period when Joe Newman blazed a 30 yard trail to Arenzville's goal. Try for extra point failed and Dosh lagged 7-6 at the intermission.

It was all Meredosia in the second half. Notrup tallied for the Indians in the third quarter on an end around play which moved 32 yards.

Dosh Halfback Henderson broke loose for two consecutive 20 yard romps to reach pay dirt for his club in the fourth quarter. Tony Simon wound up all scoring with a 20-yard excursion around end. Meredosia failed to convert a single extra point.

## DODGER RELIEFER BOUGHT BY CUBS

Chicago, Oct. 13.—(P)—The Chicago Cubs today announced purchase of Pitcher Earl Minter and First Baseman Preston Ward from the Brooklyn Dodgers for an undisclosed sum.

Minter, a 26-year-old left hander, was with the Dodgers all season as a reliever, winning three and losing one in 27 appearances.

Ward, installed as a Brooklyn regular at the beginning of the 1948 season but shipped to the minors for further seasoning, played with Fort Worth of the Texas league last season, batting .306.

## Four Horsemen Of Notre Dame To Be Honored Nov. 26

South Bend, Ind., Oct. 13.—(P)—Notre Dame's four horsemen team of 1924 will be honored in a 25th reunion celebration the weekend of the Irish-Southern California game here Nov. 26.

The affair, including a half-time ceremony, will be sponsored by the Notre Dame Monogram club which has invited all squad members and assistant coaches of the famous team to attend.

Five squad members, including regular guards John Weibel and Noble Kizer, and the immortal Knute Rockne, who coaches the team, are dead.

All four members of the "horsemen" backfield, Harry Stuhldreier, Don Miller, Jim Crowley and Elmer Layden, are expected along with the surviving "seven mules"—ends Chuck Collins and Ed Hunsinger; tackles Joe Bach and Rip Miller; and center-captain Adam Walsh.

Undeclared in the regular season, that team made Notre Dame's only appearance in the Rose Bowl, beating Stanford, 27-10, on Jan. 1, 1925.

## Los Angeles Rams Best Undressed Team In Business

Chicago, Oct. 13.—(P)—The Los Angeles Rams today were the best undressed team in the National Football League.

A laundry fire burned up all 32 sets of the Rams' golden jerseys and pants.

That stroke of misfortune followed the hospitalization of Head Coach Clark Shaughnessy earlier this week with influenza.

Both the Rams and Shaughnessy, however, will show up at Detroit for Sunday's league battle with the Lions.

The Rams got measured for new suits and jerseys today. If they aren't ready by Sunday, the club will don old blue jerseys and pants it carries as spares.

The Rams practiced at the University of Chicago this week, following their 34-16 win over the Chicago Bears at Wrigley Field last Sunday.

## NBA Doesn't Give Valentino Much Chance To Win

Washington, Oct. 13.—(P)—The National Boxing Association apparently doesn't give Pat Valentino much of a chance in his fight tomorrow night with Ezzard Charles.

Announcing the final ratings for 1949 in all boxing divisions, a day before the Cincinnati negro tangles in San Francisco with Valentino, a California hopeful, the NBA said: "Charles is the undisputed heavyweight champion of the world. He has evidenced a willingness to meet any contender who might rear his head."

As for Valentino, the NBA rated him only as an "outstanding boxer," with a fifth place rating.

The logical contenders to capture Ezzard's throne, the NBA says, are Lee Savold, New Jersey; Bruce Woodcock, England and Jersey Joe Walcott.

The NBA proposed that Charles should box Savold this winter, the winner to box Woodcock.

The possibility that Valentino might change the script apparently wasn't considered.

**Wildcats In Secret Session**

Evanston, Ill., Oct. 13.—(P)—Northwestern's football team spent today's long, secret practice session on punting, signal calling and defensive tactics against Michigan plays.

Coach Bob Voigts said that veteran end Joe Zuraileff, who sprained his ankle in scrimmage last night, will not be able to play against the Wolverines Saturday.

Voigts indicated he will restore Don Burson to the starting quarterback role.

## End Preliminaries In Grade School Softball Tourney, Finals Today

Meredosia grade school softballers grabbed a pair of wins in class "A" competition as the Morgan county softball tournament got underway at Chapin Thursday morning.

The river-town gang opened the meet with a resounding 17-1 victory over Murrayville. Waverly followed up by tamping South Jacksonville 12-6, to end the morning session.

Chapin got the afternoon performances underway by clipping North Jacksonville 17-10. Then Meredosia came back to edge past Arenzville 16-14. Arenzville had drawn a bye in first-round play.

In the class "B" section which is being held on the Chapin grade school diamond, Concord led off with a 34-9 win over Sinclair. Lynville trampled Litterberry 26-3. Concord was forced to come back and play Woodson in the afternoon and lost 7-3. Litterberry clipped Concord 29-21 for consolation prize in the class.

The Concord kids played three games in the tournament and bowed out in a sweat.

Today's games in the class "A" tournament, held on the Chapin high school diamond, shows Waverly nipping Chapin at 9:30 a.m.; Arenzville tangles with the loser of this first game at 1:45 a.m. for consolation money. Meredosia will fight with the Chapin-Waverly winner for the class "A" crown, the first game of the afternoon.

In "B" competition today Lynville will mix with Woodson for the title at 1 p.m.

The class "A" and "B" champions will meet for the Morgan county grade school softball crown at 2:45 this afternoon on the Chapin high school grounds.

## Whitey Kurowski Released By Cards

St. Louis, Oct. 13.—(P)—George (Whitey) Kurowski, sturdy third baseman of the St. Louis Cardinals for eight years, was given his unconditional release by the club tonight.

Troubled by a lame right elbow, the 31-year-old infielder had not played regularly with the Cards since 1946 when he appeared in 77 games. He was sent to Houston of the Texas League last summer and rejoined the Cards late in the season. He was then used only in pinch-hitting roles.

Kurowski was a star performer for the Redbirds during their pennant-winning years of 1942, 1943, 1944 and 1945.

## Major Tests Before Strong Prep Elevens

Springfield, Ill., Oct. 13.—(P)—Unstopped West Aurora invades West Rockford Friday for the first major test in a bid to defend its Big Eight high school conference football title.

The clash of the two northern powers shares feature billing on the downstate weekend prep grid program with Pekin's journey to Peoria. Manual and the collision of two unbeaten Springfield elevens, Cathedral and Lanphier.

West Aurora, an easy victor over LaSalle-Peru last week and undefeated in 16 tilts, meets a Rockford club that showed plenty of scoring prowess in a six touchdown attack against Freeport. The Rockford lads have faltered once in four starts.

**Pekin In Big 12 Mix**

Pekin's Chinks have their work cut out Friday. Manual's Rams have allowed a single touchdown in notching four consecutive victories, and like the Chinks are nursing Big 12 flag ambitions. Pekin owns three successes and one tie.

The Lanphier-Cathedral match pits two offensive minded outfits which in previous years have been overshadowed by the Springfield-Maywood on Saturday.

The games send Mt. Carmel (won 3, lost 1) to Salem (won 3, lost 0) in the North Egyptian; Casey (3-1) to Robinson (3-0-1) in the Eastern Illinois loop, and Greenfield (2-2) to Pittsfield (3-1) in the Illinois Valley.

Most of the major unbeaten, untied teams expect to notch new triumphs without much trouble. Moline is host to Beaumont of St. Louis Friday in aiming for its fifth straight win and New Trier of Winnetka tries for No. 5 at Proviso of Maywood on Saturday.

## Charles Defends NBA Title In Frisco Bout

San Francisco, Oct. 13.—(P)—Charles won three times from Bivins and lost once. Bivins took two decisions over Valentino. Trainer Papke thinks Valentino's powerful punch punches gives him an excellent chance to win the title.

Whether the mop-haired San Franciscan could catch up with the champion long enough to administer telling body punishment was debatable. Charles has outsped most of his opponents. He's a slashing type hitter. Valentino probably has the harder wallop.

Whatever the outcome, an action battle was forecast. Valentino, off past performances, at least will go down swinging. So will Charles, if the unexpected happens.

It will be Charles' second defense of the N.B.A. recognized title since he defeated Walcott, June 22 last in Chicago. He stopped Gus Lesnevich, Aug. 10 in New York. Because of his confident attitude, he's already been looking past Valentino and a champion Johnny Papke, trainer for one opponent, Jimmy Bivins, led opponent in December.

## Saturday Deadline For Farm Owners To Call Minors

New York, Oct. 13.—(P)—A harvest moon is shining on the baseball world with a Saturday night deadline for farm owners to call the pick of their minor league crops.

The freeze goes on all minor league rosters Oct. 15. There can be no changes until after the winter draft meetings. Unless a club has a prospect safe in the big league barn, he may lose him for \$10,000 or \$7,500.

Branch Rickey faces a dilemma, shared by many other owners. His farms are loaded with scorable produce. On the basis of his world series disappointments, he can use some help in Brooklyn.

Which players to move to the Dodgers? Which to sell? Which to chance in the draft?

Already the optioned players have been recalled, if the parent club wishes to exercise the right. Now it's a matter of picking the best of the eligible prospects.

Any player who has seen service during parts of four seasons in a Triple A league (International League, American association or Pacific Coast league) can be snatched for \$10,000 if he hasn't graduated to the big leagues. Four seasons also make a player draft bait in class double A (Southern association and Texas league) but the price is only \$7,500.

**Fastest football game in our record book is the Routt-Chandlerville fray last night. The game started at 8 p.m. We stayed until the last dog died, drove our little junky back to Jacksonville, locked at the clock on the wall, and it lied. Or so we thought. The blamed thing measured only 10:10 p.m. Don't ask us how we did it. All we know is that we can never make it back from the local northside field in that kind of time. Chandlerville is 25 miles away.**

**Six-man football has always been billed as a "fast" game but never carried that connotation with us. We thought it meant that the number of players provided for more speed and less contact. Evidently the players aren't the only things on the field that move rapidly.**

## Navy's Football Morale Showing First Upturn

Annapolis, Md., Oct. 13.—(P)—Catch an admiral out of Washington, talk about football and he's as exuberant as a boat sailor on liberty the first time. The Navy's been winning some games.

Denfield, Haley and others cheered with the brigade last Saturday when the midshipmen torpedooed Duke, 23-14.

It was only the second consecutive victory for Navy—but for Navy, that's something. Previously, it had taken three painful seasons, 1946 through 1948, to win that many.

During the ordeal, the Midshipmen suffered one stretch of 15 games and another of 11 without taking one decision.

There were hopeful murmurs last spring, but not until two Saturdays ago did shouts really go up along the seaven. Navy submerged Princeton, 28-7, to end the longest losing streak in Annapolis history.

The Midshipmen actually landed in the second team among top teams selected in the latest Associated Press poll.

What accounts for the upturn? George Sauer, now enjoying the billet he accepted a year ago as the Navy's first civilian coach in 15 years, credited almost everything. "We are faster," Sauer said. "Our line play has improved greatly, both on offense and defense. We're running and passing better. And we're doing more with the ball than last season."

Navy followers add that Sauer and his squad have become oriented to each other, and a dozen talented sophomores, including quarterback Bob Zastrow, have had a hypodermic effect.

Winning one after so many dismal Saturdays helped, too. Last season it was a matter of waiting tensely for someone to make a mistake, then watch the sky cave in.

Navy currently ranks fifth in the nation for total offense, with an average of 417 yards in losing to Southern California, bombarding Princeton and Duke. The Midshipmen are seventh in passing gains, with a 182.3 average.

## Athletics Fire 2 Vet Coaches; Mack Disapproves

Philadelphia, Oct. 13.—(P)—The Philadelphia Athletics today fired veteran coaches Al Simmons and Earle Brucker in the first major decision the club ever has made against the wishes of Connie Mack.

The handwriting on the wall seemed pretty plain for all baseball to read. The 86-year-old owner-manager no longer is the absolute boss of the American league club he helped found.

Dismissal of the two coaches, a complete surprise to them and to Philadelphia fans, was announced as having been ordered by the club's board of directors. And in a tight-lipped statement, Connie said: "They (Simmons and Brucker) both are wonderful fellows and I thought they did a fine job for us."

But the board of directors decided we could do without them and they have the final say in running the ball club.

The directors are Mack's three sons, Earle, Roy and Connie, Jr.; Benjamin MacFarland, grandson of the late John Shibe who founded the club with Connie, and Robert Schroeder, one time Shibe park hot dog hustler who never has worked for any other organization.

How the directors voted could not be learned.

## Announce Starters For Intra-City Mix; Jacks Seek First Win

The Jacksonville high school and Illinois School for the Deaf football teams will tangle in a spur-of-the-moment scheduled fracas under the Northside lights at 8 o'clock tonight.

The set-together was announced Thursday morning. It was booked at the last minute to fill a breach in Jacksonville football activity, otherwise there would have been no game in town this weekend. Routt played at Chandlerville last night and Illinois College moves to Eureka Saturday evening.

**Result Of Schedule Mix Up**

The Tigers and Crimsons have been meeting in intra-city football games for many years. However, the series was to be interrupted this fall because of scheduling difficulties. When Rushville-Jacksonville's original opposition tonight—came up with two games on the same date, the Jacks were released and left with time on their hands. Art Yates' Tigers had set this Friday aside as a rest period.

Of the two elevens, the Tigers, with one victory, have enjoyed the most success to date. The Yatesmen whipped Petersburg 15-0 but have been handed losses by Carrollton and Waverly.

Bob Kraushaar's Crimsons have had difficulty getting up steam this season. They have dropped games to Pittsfield, Quincy and Beardsville.

## Kid Gavilan Will Battle Beau Jack In Chicago Tonight

Chicago, Oct. 13.—(P)—Kid Gavilan, the Cuban swimmer with world's welterweight championship aspirations, will battle Beau Jack, a one-time lightweight champion, in a ten round bout in the Chicago stadium tomorrow night.

The winner will gain recognition as the No. 1 contender for Ray Sugar Robinson's 147-pound crown. Gavilan rules a 3 to 1 favorite with practically no betting reported. On form Gavilan figures to score a decisive victory since he has a distinct advantage in reach, weight, height, age, and what little cleverness that may be displayed.

Beau Jack will weigh approximately 141 pounds at which figure he has fought since casting his lot with the welterweights. He blazed his knockout setback by Ike Williams 18 months ago on weight making and has been meeting welterweights since. Gavilan figures to scale about 146.

It will be the Cuban's first ring engagement since he was knifed in a street brawl following a traffic incident in New York's Harlem district several weeks ago.

## Illinois, Missouri Meeting For First Time In 36 Years

Champaign, Ill.—Illinois has an opportunity to improve its 1949 record against Big Seven competition at 1:30 p.m. (CST) Saturday when it tangles with Missouri at Memorial Stadium before an estimated 40,000 spectators.

The Fighting Illini opened the season unimpressively against Iowa State, another member of the Big Seven conference, with a 20-20 tie. Also awaiting Illinois is a chance to maintain its perfect record against the Tigers. Illinois has defeated Missouri on the only two other occasions the teams have met, although the last game was played 36 years ago.

Biggest question concerning the game Saturday is whether or not Coach Ray Eliot's Illini can depend upon a newly found offense, and at the same time hold a Missouri eleven that has tallied 82 points in three games.

Until last week Illinois had managed to roll up only 33 points against two opponents while playing tie contests. But when the Illini traveled to Iowa City last Saturday they broke loose with a 420-yard total offense against a reportedly strong defensive Iowa squad.

Missouri, however, can present a more consistent offensive record. While losing to powerful Ohio State, Jacksonville News Ag. 812 875 835 and Southern Methodist teams in Cosgroff Cede ... 814 723 807, first two games of the season, margin of defeat in each cast was only a single point. Last week Coach Don Faurot's split-T offense finally managed to come out on top, 21-7, against Oklahoma A & M.

# School Building Need Told To Kiwanis Club

Mrs. Hugh Beggs, a member of the Jacksonville Board of Education, explained to the Kiwanis club Thursday the need for an elementary school building program adequate to provide space for 350 more children. "We have a booming population in Jacksonville, and the problem is an immediate one," Mrs. Beggs declared.

The Board of Education has considered several plans for coping with the situation, and now regards as the most feasible the construction of an entirely new and separate elementary school coupled with the remodeling of Jefferson school and the addition of two classrooms at Franklin school.

The estimated approximate cost of such a building program would be \$600,000, Mrs. Beggs said.

Included in the plan, the speaker explained, is a public kindergarten program which would make available to all children the advantages of pre-school training.

The tax consequences of the program should be seriously considered, Mrs. Beggs pointed out. The school district's maximum debt limit is \$1,300,000. As of Jan. 1, 1950 the district will have bonds outstanding in the amount of \$242,000. "In the predictable future there will also inevitably arise the need for expanding our junior high and high school plants," she said.

"Antiquated Tax Structure"

The root of our difficulty in financial essential educational programs lies in our antiquated tax structure under which real estate bears nearly all the burden of local taxation. "We need a complete overhaul of the tax system. The solution is at the state and federal level, but the impetus must come from the local communities," Mrs. Beggs declared.

"It is a great mistake to seek federal aid and state grants in aid instead of attempting to revise local taxing powers. The control of the purse should not be removed from local governments," she concluded.

Mrs. Beggs was introduced by Harry Story, program chairman for the day.

# Clinton Soldier Held For Court Martial After Jump

Shreveport, La., Oct. 13.—(P)—A 22-year-old soldier who parachuted from his flying prison, only to be recaptured four hours later, was held here today for court-martial.

Pvt. Howard Shinneman said he had no idea of making a permanent escape when he "hit the silk" from a C-82 in which he and nine other military prisoners were being transferred from Forbes Air Force base at Topeka, Kan., to Barksdale field here.

The Clinton, Ill., war veteran, after a jump from an altitude of about 3,000 feet, landed near Nashville, Ark. He hid his parachute, trudged five miles across muddy fields, and then thumbed a ride with Howard County Sheriff Arthur Hicks. Hicks had been notified of the escape and was seeking the soldier.

# Hearing To Settle Witchcraft Charge Against Woman

Eldridge, Calif., Oct. 13.—(P)—A hearing opened today to determine if a former employee tried to upset patients in the Sonoma State home with talk about witchcraft.

An attractive, 35-year-old woman, dismissed as an employee at the home for the feeble minded, is trying to clear her name. She is Mrs. Lorena Blackwell, whose dismissal notice accused her of threatening to put a "curse" on some of the patients and of delving in witchcraft.

"There's no black magic; it's just a black mark for a very intelligent and very religious woman," her attorney, Charles E. Greenfield, Jr., said.

"I haven't heard of anything like this since the Salem witch hunt. Somebody apparently didn't like Mrs. Blackwell and started yelling 'Witch'."

Dr. Marshall E. Porter, superintendent of the home, dismissed her on Sept. 8. He said she had disturbed the patients in the psychopathic ward with talk of signs of the moon, by grabbing them in the dark and by talk of witchcraft.

# Marathon Prayer Meeting Attracts Little Attention

Chicago, Oct. 13.—(P)—A marathon prayer meeting was held today in a downtown hotel.

The 15-hour session, 7 a.m. to 10 p.m., was intended by sponsors to make people more conscious of God in the atomic age.

At mid-morning, five men and three women took part in the worship session. There were 150 seats. Prayers were interrupted at intervals by hymns and by sermons given by seven Protestant ministers.

Men and women, negroes and whites, drifted in and out. One negro woman made a fervent appeal for relief of a family whose home burned.

One of the clergymen enlisted by a prayer group of the Christian Business Men's committee said too much praying today is "lackadaisical, smug and easy-going." He asked:

"What does it take to make people pray—an atom bomb?"

# Furnace Explodes; Damages Church

York, Neb., Oct. 13.—(P)—While choir members rehearsed the anthem, "Lord Have Mercy," the furnace blew up and the choir loft ceiling fell down. It happened at the Evangelical United Brethren church here last night.

Caldwell suffered burns on the chin and arm but choir members escaped injury. Damage to the furnace and church was estimated at \$3,000.

# Little Jerry Barber Back In Pasadena For Rest

By Shavenau Glick

Pasadena, California — Up-and-coming Jerry Barber, the smallest man on golf's "golden trail" summer tournament tour, is back in Pasadena for a few months rest and practice following a successful season battling birdies with golf's greatest shooters.

Barber, who first gained national prominence with his Jerry Barber Golfing Glove, is now associated with Gene Borghyne at the Hastings Ranch Golf Range. The tiny Pasadena, only five-foot-five-inches tall, is conducting golfing clinics and exhibitions at the range every Monday night, in addition to giving lessons.

Barber's next tournament will be the \$1000 Santa Anita Open, which starts next week at Arcadia.

Jerry is the son of Mr. and Mrs. A. J. Barber, 1900 South Main street, Jacksonville. He began his rise to national golfing acclaim as a caddy on local links.

# Surprised Couple Are Parents Of Quads, Not Twins

Sault Ste. Marie, Ont., Oct. 13.—(P)—Quadruplets were born today to a surprised couple who had expected only twins.

Mrs. Oswald C. Hargreaves, wife of a Canadian war veteran, could only comment "I never expected this" as her four tiny but healthy daughters were taken to an incubator.

The girls, averaging about 3 1/2 pounds each, were born three weeks prematurely, but Dr. John McDonald said the delivery at the hospital was just about normal.

Hargreaves, an employee of the Great Lakes Power company, said: "We did expect twins and had prepared for them, but we didn't have clothes for four little girls. However, we are tickled pink. It's wonderful."

Dr. MacDonald said he had been certain it would be a multiple birth, "but I never expected four."

"The babies and the mother are doing fine, and so far as I can judge have an excellent chance of survival," he said.

Mrs. Hargreaves has two children by a previous marriage. One, a girl, is six years old and a boy is four.

"In Los Angeles, we think in technical. Over here, the people all seem to think in black-and-white."

The hearing room roared with laughter.

# Ralston Crawford Art On Exhibit At MacMurray

The MacMurray College Art department is currently exhibiting in Pfeiffer library the work of Ralston Crawford, prominent American artist and photographer. The collection new being shown consists of etchings, lithographs, silk screen prints, and original drawings and photographs. Being a photographer as well as an artist, Mr. Crawford uses photographs both as documentary material for his painting and as an art form in itself.

Though Crawford's work is abstract it is brought to this abstract stage through many careful drawings. Starting often with a photograph of a subject he makes drawings, stressing aspects, eliminating what he wishes and enforcing certain pertinent passages. The result is an extremely careful adjustment of line, plane, and color.

During the war Mr. Crawford was in charge of the army weather corps department which dealt with visual air maps. These air maps were Mr. Crawford's own development and were highly praised by both the army and civilian art critics. Crawford was the only artist present during the atom bomb tests at Bikini.

Mr. Gay of the MacMurray art department will give a short gallery talk on the exhibition at 4 p.m. Monday, Oct. 17.

The public is cordially invited. The exhibition will run until Nov. 1.

# RUSSIAN USES OLD PROVERB TO STRESS POINT IN MEETING

Lake Success, Oct. 13.—(P)—"When a pretty girl makes a mistake, it does not make her less pretty."

This is an old Russian proverb, recited to the United Nations legal committee today by Soviet Delegate V. M. Koretzky to prove his point that while he recognized the ability of his committee colleagues he did not necessarily regard them as infallible.

Sir Hartley Shawcross, Britain's attorney general, whispered something to Koretzky.

"Mr. Shawcross," Koretzky tattled to the committee, "has said that he hopes 'pretty girls' will continue to make occasional mistakes."

# Jersey Killer Believed To Be In Texas Now

Jerseyville, Ill., Oct. 13.—(P)—Police of several states tonight were searching for Leonard (Lucky) Hawkins in connection with the slaying of Albert E. Clark, 23-year-old navy veteran of Boise City, Okla.

Clark's body, a bullet wound in the head, was found yesterday near a lonely road 31 miles south of here.

Sheriff C. E. Weddell, of Jersey county said he had secured out a first degree murder warrant against Hawkins on the basis of the evidence against him. Clark, the sheriff said, was shot and robbed of an undetermined amount of money and his automobile. He had been dead about a week when the body was found by a farmer.

Sheriff Weddell said his office had learned that Clark had been working at a restaurant in Clayton, N.M., and that he had left there about Oct. 1 to attend the World Series which he expected would be played in St. Louis. Weddell said a man who gave the name of Hawkins had accompanied Clark.

New Mexico officers said the man told Clark he would pay the expenses of the trip if Clark would drive his (Clark's) new car.

Search for Hawkins centered in New Mexico and Texas after a Dallas, Texas, girl reported a man kidnapped her last Saturday and robbed her escort. She said she was taken away in a car which she identified from papers as Clark's.

The girl, Juanita Groves, 19, said she escaped by striking the man on the head with a fire extinguisher in a Vegas, Texas, tourist court. The man had fled when she returned with police.

# Parents Of Child Kidnapped 5 Years Ago May End Hunt

Hastings, Mich., Oct. 13.—(P)—Torn between hope and doubt, an Ohio couple looked for evidence today whether they had found their baby son kidnapped five years ago.

Blond, blue-eyed William "Tommy" O'Neill, 6, a ward of the state of Michigan, was the lad in question.

Perplexed state police were aiding Mr. and Mrs. Arthur Thompson of Dayton, Ohio, in the couple's efforts to determine if "Tommy" is their son.

The Thompsons came to Michigan after receiving a report that Tommy might be their own Ronald who was abducted from their home Oct. 7, 1944.

At the time the Thompsons' newly engaged nursemaid, a red-haired woman who gave the name of Alice White, also disappeared. She was never seen again.

There are physical similarities, including webbed toes on both feet and a pinched right ear in addition to the blue eyes and blond hair.

But the Michigan Children's Institute is not sure about it.

According to the official word, Tommy was born to an unmarried Toledo woman who turned him over to a Mexican family which, in turn, lost him to the institute two years ago.

## Who wants to put A&amp;P out of business?

Not our customers. Many thousands of them are writing and phoning us and telling our clerks and managers that they want to continue to enjoy quality A&P foods at low A&P prices.

Not our suppliers. Farmers and manufacturers alike are telling us that they want to protect this efficient outlet for their products.

Not our 110,000 employees. They want to keep our high wages, good working conditions and security they enjoy with A&P.

Not labor. Union leaders are wiring us to ask what they can do to defeat this threat to labor's living standards.

All these people are telling us they don't want the anti-trust lawyers to put A&P out of business.

Someone to Love

By IRENE LONNEN ERNHART Copyright, 1949, NEA SERVICE, INC.

THE STORY: Jenny's marriage to Tod Duncan began down with many difficulties, but she hopes for a change when at last she finds a basement apartment in the city where she and her twin sons can live. Tod, however, is unable to forget Liz Conover, who jilted him before he married Jenny. He is also worried about his mother, who dislikes Jenny, and who has tried to break up the marriage. Jenny, hearing that Tod's mother is ill, decides to call on her and make amends. But she finds Mrs. Duncan gone and learns that Mrs. Duncan has become an addict to a certain "nerve medicine." Then Mrs. Duncan falls down a stairway and is taken to a nursing home. Although this will end the medicine habit, Tod's payments to the home make their financial situation worse.

XXII

WITH the hospital bill for Ma's illness, the budget of a budget already strained, it was ridiculous to think of buying anything but the bare necessities. To keep the bills both well fed and warm was the main thing. Even then, in December, they began having colds. Nina, the only person Jenny saw with the exception of the landlady and Tod and the grocer, came often and offered advice in copious quantities. "You ought to get the babies out of this damp apartment, Jenny," she suggested one day. "And why don't you get yourself some new clothes, hon? It would pep you up. Max would still give you a discount."

Jenny, worn out from all-night crowd sessions and worrying about saving pennies, and trying not to mind her own shabby appearance, struck back that day with the blunt resentment of months. "We're lucky to have this apartment. And as for clothes—it's ridiculous to even think of getting any for myself."

"Tod always looks like a fashion plate."

"That's different. His job depends on it."

"Jenny, you owe yourself something. Look at you—you're half needs fixing, and you've got cir-

cles under your eyes from being up at night with the twins—"

"They're worth it, Nina."

"Of course! But Tod should think of you once in a while."

"Tod's doing the best he can. He has to take care of his mother."

Nina stared at her for a moment or two.

"I don't want to hear any criticism of Tod," Jenny said. "If you don't like him, Nina, we can't be friends."

Without another word Nina picked up her coat and hat. At the doorway she turned back and said, "If you'd rather hide your head like an ostrich, hon, I guess it's not my place to spoil things for you. Let me know if you need me. Maybe you're right. Maybe I'd better stay away, because I can't keep my mouth shut about Tod."

TOD came home half hour later to find Jenny crying as she went about getting their supper.

Jenny faced him wildly, her face flushed and moist, her eyes puffy from crying. "Nina criticized me for not getting new clothes and—well lots of other things. She wanted to tell me things about you too. But I wouldn't let her."

"I wouldn't let Nina upset me," Tod said. "He went into the other room, where one of the twins was whimpering."

He felt guilty at Jenny's words because only this afternoon Liz had wanted him to come to a cocktail party Conover Advertising, Inc., was giving for a big industrialist—a client.

Liz had said, "If you think Jenny would disapprove of your going, we'll take her along."

He knew he didn't dare go with Liz. If he went to the party with her, he might start going other places with her. He'd meet her places clandestinely—well it was just no good.

While Jenny got the twins ready for bed he said, "I wish I could find the money, Jenny, for you to get some clothes, but you know how it is."

She was in an awful mood tonight, quite unlike herself. She whirled around, her face red and said, "I suppose you're ashamed of me!"

"No, Jenny, it isn't that at all." He turned away and went into the bedroom to get ready to go visit Ma at the nursing home. He went twice a week. Tonight he knew it was a good thing he was going out.

After Tod had gone, Jenny took up the evening paper and tried to read, but she was too tired. She got ready for bed and tried to relax then, but she was too exhausted to go to sleep immediately.

Not having enough money was a dreadful thing. It spoiled one's outlook. And besides that she was awfully tired from staying up late nights with the babies. Yes, she was awfully tired.

SHE lay there awake a long time thinking, trying to remember exactly how she had felt that March day so long ago—no not so long ago either, only two years—when she had gone down to the Union Station to meet Tod.

It was snowing, she remembered, and the store windows were full of spring things. She had been so excited about seeing Tod again. He had liked her hat. That little brown velvet bonnet. She still had it, only she never had any occasion to wear it any more. But Tod had said she looked cute in it.

She crawled out of bed suddenly, throwing back the covers, and went to the closet and found the box where her old hats were. She fished out the velvet bonnet and brushed it off. The tulle ribbons were frayed. She went to the mirror and snapped on the dressing table light and put the hat on her head. She stared at herself for a long moment, her heart sinking. She looked terrible, her eyes puffy, no make-up, hair stringing down on either side of her face. And then too, a velvet bonnet doesn't look too becoming atop a pair of faded cotton pajamas. She flung it on the dressing table, tears rolling down her cheeks now. Tears of self pity.
